Fund =

Dear

This letter responds to the request of Taxpayer, dated March 12, 1998, and supplemental information submitted by Taxpayer for a revised schedule of ruling amounts in accordance with sections 1.468A-3(i)(1)(iii) and 1.468A-3(i)(2) of the Federal Income Tax Regulations. The request for a mandatory review is the result of a decrease in the amount of decommissioning costs for the Plant by Commission A for and Commission B for The request for an elective review is the result of an increase in the amount of decommissioning costs for the Plant by Commission A for and Commission B for Taxpayer was previously granted a revised schedule of ruling amounts on August 1, 1996. Information was submitted pursuant to section 1.468A-3(h)(2).

PLR-107154-98

We understand the facts as presented by Taxpayer to be as follows:

Taxpayer owns a : undivided interest in the Plant, which is situated in Location. Prior to Taxpayer

At the present time only of Taxpayer is of the three commissions. For Taxpayer is subject to the jurisdiction of Commission A, Commission B, and Commission C, for a total of For and thereafter, Taxpayer is subject to the jurisdiction of Commission A, Commission B, and Commission C, for a total of The jurisdictional percentages to do not add up to because a

The three commissions that regulate Taxpayer are using the to set regulatory cost of service as the

Taxpayer is under the audit jurisdiction of the District Director of the District. The Plant's operating license expires on The estimated base cost for decommissioning the Plant is based on an independent study and is premised on the prompt removal/dismantlement method.

Commission A issued

Among other things Commission A decreased the decommissioning cost for to be included in Taxpayer's cost of service for ratemaking purposes from As per

section 1.468A-2(f)(1)(ii)(A) of the regulations this in decommissioning cost was applied to Taxpayer's cost of service for The decommissioning cost for

There will be a yearly increase in decommissioning costs for .

For the decommissioning cost will decrease to In determining the decommissioning costs for the Plant, Commission A used an estimated cost of

and this cost escalated at an annual rate of results in a future estimated cost of The Taxpayer's of these estimated costs is and respectively. Commission A's jurisdictional share of these costs is respectively.

PLR-107154-98

Commission B issued an order in which confirmed the decommissioning costs in its order, to be included in Taxpayer's cost of service. This order was fully implemented in included in Taxpayer's cost of service for and the remaining service for included in Taxpayer's cost of Therefore, for the years the decommissioning costs were reduced from There will be an increase in decommissioning costs for the years For the decommissioning cost will decrease to In determining the decommissioning costs for the Plant, Commission B used an estimated cost of and this cost escalated at an annual rate of results in a future decommissioning cost of The Taxpayer's of these costs is respectively. Commission B's jurisdictional share of these costs is respectively.

Taxpayer is requesting an increase in Commission C's ruling amounts from The requested schedule of ruling amounts is based on Commission C's estimated total cost to decommissioning the Plant of and this estimated cost escalated at an annual rate of results in an estimated future cost of Based on the results in an amount of future dollars. Commission C's jurisdictional share of these costs is respectively. The Energy Policy Act of 1992 was not taken into account in determining the after-tax rate of return.

The funding period and level funding limitation period for Commissions A, B and C extends from For Commissions A and B the estimated period for which the Fund will be in effect is and the estimated useful life of the Plant is resulting in a qualifying percentage of For Commission C the estimated period for which the Fund will be in effect and the estimated useful life of the Plant is resulting in a qualifying percentage of For Commission A the assumed after-tax rate of return to be earned on the assets of

There are currently rate cases before Commissions A and B that may result in an increase or decrease in the amount of decommissioning costs to be included in Taxpayer's cost of service for ratemaking purposes. There are no current proceedings before Commission C that may result in an increase or decrease in Taxpayer's cost of service for ratemaking purposes.

Section 468A(a) of the Code provides that a taxpayer may elect to deduct the amount of payments made to a qualified nuclear decommissioning fund. However, section 468A(b) limits the amount paid into the fund for any tax year to the lesser of the amount of nuclear decommissioning costs allocable to the fund that is included in the taxpayer's cost of service for ratemaking purposes for the tax year or the ruling amount applicable to this year.

Section 468A(d)(1) of the Code provides that no deduction shall be allowed for any payment to the nuclear decommissioning fund unless the taxpayer requests and receives from the Secretary a schedule of ruling amounts. The "ruling amount" for any tax year is defined under section 468A(d)(2) as the amount which the Secretary determines to be necessary to fund that portion of nuclear decommissioning costs which bears the same ratio to the nuclear power plant as the period for which the fund is in effect bears to the estimated useful life of the plant. This term is further defined to include the amount necessary to prevent excessive funding of nuclear decommissioning costs or funding of these costs at a rate more rapid than level funding, taking into account such discount rates as the Secretary deems appropriate.

PLR-107154-98

Section 468A(g) of the Code provides that a taxpayer shall be deemed to have made a payment to the nuclear decommissioning fund on the last day of the tax year if the payment is made on account of this tax year within 2 1/2 months after the close of the tax year.

Section 1.468A-1(a) of the regulations provides that an eligible taxpayer may elect to deduct nuclear decommissioning costs under section 468A of the Code. An "eligible taxpayer", as defined under section 1.468A-1(b)(1), is a taxpayer that has a qualifying interest in a nuclear power plant. As defined under section 1.468A-1(b)(2), a "qualifying interest" is, among other things, a direct ownership interest, including an interest held as a tenant in common or joint tenant.

Section 1.468A-2(b)(1) of the regulations provides that the maximum amount of cash payments made (or deemed made) to a nuclear decommissioning fund during any tax year shall not exceed the lesser of the cost of service amount applicable to the nuclear decommissioning fund for such tax year; or the ruling amount applicable to the nuclear decommissioning fund for such tax year.

Section 1.468A-2(f)(ii)(A) of the regulations provides that if the retroactive adjustment reduces the amount of decommissioning costs included in cost of service for one taxable year ending before the date of the adjustment, the total amount of the reduction must be taken into account for the taxable year that includes the date of the adjustment.

Section 1.468A-3(a)(1) of the regulations provides that, in general, a schedule of ruling amounts for a nuclear decommissioning fund is a ruling specifying annual payments that, over the tax years remaining in the "funding period" as of the date the schedule first applies, will result in a projected balance of the nuclear decommissioning fund as of the last day of the funding period equal to (and in no event more than) the "amount of decommissioning costs allocable to the fund."

Section 1.468A-3(a)(2) bases the schedule of ruling amounts on the reasonable assumptions and determinations used by the applicable public utility commission(s) in establishing or approving the amount of decommissioning costs to be included in the cost of service for ratemaking purposes, taking into account amounts that are otherwise required to be included in the

PLR-107154-98

taxpayer's income under section 88 of the Code and the regulations thereunder. Each schedule of ruling amounts shall be based on the public utility commission's reasonable assumptions concerning; (i) the after-tax rate of return to be earned by the amounts collected for decommissioning, (ii) the total estimated cost of decommissioning the nuclear power plant, and (iii) the frequency of contributions to the nuclear decommissioning fund for a tax year.

Section 1.468A-3(a)(3) of the regulations permits the Internal Revenue Service to provide a schedule of ruling amounts identical to the schedule proposed by the taxpayer, but no such schedule shall be provided by the Service unless the taxpayer's proposed schedule is consistent with the principles and provisions of this section.

Section 1.468A-3(b)(1) of the regulations provides that the ruling amount, specified in a schedule of ruling amounts, for any tax year in the level funding limitation period shall not be less than the ruling amount specified in such schedule for any earlier tax year. Under section 1.468A-3(b)(2), the level funding limitation period begins on the first day of the first tax year for which a deductible payment is made to the nuclear decommissioning fund and ends on the last day of the tax year that includes the estimated date on which the nuclear power plant will no longer be included in the taxpayer's rate base for ratemaking purposes.

Section 1.468A-3(d)(1) of the regulations provides that the amount of decommissioning costs allocable to a nuclear decommissioning fund is the taxpayer's share of the total estimated cost of decommissioning the nuclear power plant multiplied by the qualifying percentage.

Section 1.468A-3(d)(2) of the regulations provides that, in general, the total estimated cost of decommissioning a nuclear power plant is the reasonably estimated cost of decommissioning used by the applicable public utility commission in establishing or approving the amount of these costs, to be included in cost of service for ratemaking purposes.

PLR-107154-98

Section 1.468A-3(d)(3) of the regulations provides that a taxpayer's share of the total estimated cost of decommissioning a nuclear power plant equals the total estimated cost of decommissioning such plant multiplied by the taxpayer's qualifying interest in the plant.

Section 1.468A-3(f)(1) of the regulations provides that if two or more public utility commissions establish or approve rates for electric energy generated by a single nuclear power plant, then the schedule of ruling amounts shall be separately determined pursuant to the rules of sections 1.468A-3(a) through (e) for each public utility commission that has determined the amount of decommissioning costs to be included in the cost of service for ratemaking purposes for this plant. Under section 1.468A-3(f)(2), this separate determination shall be based on the reasonable assumptions and determinations used by the relevant public utility commission and shall take into account only that portion of the total estimated cost of decommissioning that is properly allocable to the ratepayer whose rates are established or approved by the public utility commission. According to section 1.468A-3(f)(3), the ruling amounts for any tax year is the sum of the ruling amounts for such tax year determined under the separate schedules of ruling amounts.

Section 1.468A-3(g) of the regulations provides that the Internal Revenue Service shall not provide a taxpayer with a schedule of ruling amounts for any nuclear decommissioning fund unless the public utility commission that establishes or approves the rates for electric energy generated by the plant has determined the amount of decommissioning costs to be included in the taxpayer's cost of service for ratemaking purposes and has disclosed the after-tax rate of return and any other assumptions and determinations used in establishing or approving the amount.

Section 1.468A-3(i)(1)(iii) of the regulations provides that a taxpayer is required to request a revised schedule of ruling amounts for a nuclear decommissioning fund if (A) any public utility commission that establishes or approves rates for the furnishing or sale of electric energy generated by a nuclear power plant to which the nuclear decommissioning fund relates: increases the proposed period over which the decommissioning costs of the nuclear power plant will be included in cost of service for ratemaking purposes; adjusts the estimated date on which the nuclear power plant will no longer be included in the taxpayer's rate base for ratemaking purposes; or reduces the

PLR-107154-98

amount of decommissioning costs to be included in cost of service for any tax year; and (B) the taxpayer's most recent request for a schedule of ruling amounts did not provide notice to the Service of such action by any public utility commission.

Section 1.468A-3(i)(2) of the regulations provides that any taxpayer that has previously obtained a schedule of ruling amounts can request a revised schedule of ruling amounts. Such a request must be made in accordance with the rules of section 1.468A-3(h). The Internal Revenue Service shall not provide a revised schedule of ruling amounts applicable to a tax year in response to a request for a schedule of ruling amounts that is filed after the deemed deadline date for such tax year.

Section 1917 of the Energy Policy Act of 1992 (Public Law 102-482) eliminated for tax years beginning after December 31, 1992, the investment restrictions contained in section 468A(e)(4)(C) of the Code. That section also revised section 468A(e)(2) by lowering the tax rate applicable to a nuclear decommissioning fund.

We have examined the representations and data submitted by the Taxpayer in relation to the requirements set forth in the Code and the regulations. Based solely on these representations of the facts, we reach the following conclusions:

1. Taxpayer has a qualifying interest in the Plant and is, therefore, an eligible taxpayer under section 1.468A-1(b) of the regulations.
2. Commissions A, B, and C have determined the amount of decommissioning costs to be included in the Taxpayer's cost of service for ratemaking purposes as required by section 1.468A-3(g) of the regulations.
3. Taxpayer, as owner of the Plant, has calculated the total decommissioning costs under section 1.468A-3(d)(3) of the regulations.
4. Taxpayer, subject to the jurisdiction of three public utility commissions for ratemaking purposes, has calculated its share of the total decommissioning costs allocable to Commission A, as required by section 1.468A-3(f)(2) of the regulations.

PLR-107154-98

5. Taxpayer has proposed a schedule of ruling amounts which meets the requirements of sections 1.468A-3(a)(1) and (2) of the regulations. The annual payments specified in the proposed schedule of ruling amounts are based on the reasonable assumptions and determinations used by Commission B and will result in a projected fund balance at the end of the funding period equal to or less than the amount of decommissioning costs allocable to the Fund.
6. Taxpayer has determined that pursuant to section 1.468A-3(d)(4) of the regulations the qualifying percentage is --- for Commissions A and B and --- for Commission C.
7. The maximum amount of cash payments made (or deemed made) to the Fund during any tax year is restricted to the lesser amount of the decommissioning costs applicable to such Fund or the ruling applicable to this Fund, as set forth under section 1.468A-(2)(b)(1) of the regulations.

Based on the above determinations, we conclude that the Taxpayer's proposed schedule of ruling amounts satisfies the requirements of section 468A of the Code.

APPROVED SCHEDULE OF RULING AMOUNTS
TAX YEARS
COMMISSIONS A, B, and C

<u>YEAR</u>	<u>A</u>	<u>B</u>	<u>C</u>	<u>TOTAL</u>
-------------	----------	----------	----------	--------------

The approved schedule of ruling amounts for Commission C is being limited to a five year period as a result of the statutory changes made by the Act. The elimination of the investment restrictions and the reduction of the tax rate applicable to income earned by the Fund may result in a greater after-tax rate of return than was estimated, prior to the enactment of the Act, by Commission C (which based its determinations as to the approved after-tax rate of return on restricted investments and a higher tax rate). This increased after-tax rate of return would, over the life of the Fund, result in a balance in the Fund on the last day of the funding period that would exceed the amount of decommissioning costs allocable to the Fund. In order to prevent the excess accumulation in the Fund this schedule of ruling amounts is limited to a five year period for Commission C. Approval of a revised schedule of ruling amounts may be approved after a determination by Commission C of an after tax rate of return that accounts for the reduced tax rate and unrestricted investments.

Approval of the schedule of ruling amounts is contingent on there being no change in the facts and circumstances, known or assumed, at the time the current ruling is issued. If any of the events described in section 1.468A-3(i)(1)(iii) of the regulations occur in future years, the Taxpayer must request a review and revision of the schedule of ruling amounts. Generally, the Taxpayer is required to file such a request on or before the

PLR-107154-98

deemed payment deadline date for the first tax year in which the rates reflecting such action became effective. When no such event occurs, the Taxpayer must file a request for a revised schedule of ruling amounts on or before the deemed payment deadline of the 10th tax year following the close of the tax year in which the most recent schedule of ruling amounts was received.

The approved schedule of ruling amounts is relevant only to those payments made to the Fund. Payments allocable to any funds other than the Fund, cannot qualify for purposes of the deduction under the provisions of section 468A of the Code. As stated earlier, payments made to such Fund can qualify only to the extent that they do not exceed the lesser of the decommissioning costs included in ratemaking cost of service applicable to such Fund or the ruling amounts applicable to this Fund in the tax year.

This ruling is directed only to the taxpayer who requested it. Section 6110(j)(3) of the Code provides it may not be used or cited as precedent.

Pursuant to section 1.468A-7(a) of the regulations, a copy of this letter must be attached (with the required Election Statement) to the Taxpayer's Federal income tax return for each tax year in which the Taxpayer claims a deduction for payments made to the Fund.

Sincerely yours,

CHARLES B. RAMSEY
